CAREER-OBJECTIVE:

I am a Highly motivated final year Computer Engineering student with a strong foundation in software development, problem-solving, and scalable application design. Proficient in full-stack development, eager to contribute technical expertise and creativity to a dynamic software development team.

EDUCATION

Marwadi University

Rajkot, Gujarat

B.Tech Computer Engineering

CGPA: 8.44

PROFESSIONAL EXPERIENCE AND INTERNSHIPS

IT Infrastructure Engineer Intern | Adani Ports & SEZ Ltd, Mundra | 17th January, 2025 to 17th April, 2025

- Assisted in managing server infrastructure, ensuring optimal performance and uptime.
 - Supported network configuration, monitoring, and troubleshooting to maintain seamless connectivity.
 - Developed a strong understanding of Data Center operations, security protocols, and IT infrastructure management.
-

TECHNICAL SKILLS

- **Programming Languages:** Java, C++, Java-Script, Python.
 - **Framework:** HTML, CSS, NodeJS, ExpressJS.
 - **Libraries:** ReactJS, TensorFlow, Scikit-learn, Keras,
 - **Database:** MongoDB, MySQL.
 - **Tools & Platforms:** Git, Visual Studio Code, Jupyter Notebook, Google Colab.
-

ACADEMIC PROJECTS

1. Ecommerce Web-Application

- Tools & Technologies: ExpressJS, ReactJS, Node.js, MongoDB, Tailwind CSS
- Developed a responsive eCommerce platform with features like category-based product listings, cart functionality, and user authentication. Used MongoDB for managing product and user data, React for dynamic frontend design.
- [Link](#)

2. Fake Image Detection using Machine Learning

- Tools & Technologies: Python, Machine-Learning (CNN-Model), Jupyter Notebook, Dataset – Kaggle.
 - Using Deep Learning Model and applying Continuous Learning to predict whether an image is real or fake.
